## **Customer Reviews**

This book is not what I would call exceptionally written but it's not poorly written either. It left me wanting more in the way of details. However, it touched on a subject that few relationship books written for a male audience do—authenticity of character. I have read a few books that talk about "how to get the girl" because I wanted to step outside of my routine habits of dating women who just don't fit my emotional and social needs. It's not an easy subject because so many books suggest that looking for the "right" has to do with one liners or "peacocking" or that a man needs to focus on personal development. The problem that I've found is that I have two options when it comes to the

subject of dating- 1) books and seminars on how to maintain a relationship 2) the books like those written by "Style" and Mystery" There are some valid things that I have taken away from each of these sources. For instance, the relationship books I've read like Love and Respect or Men Are From Mars... have given me a more clear understanding of the social interaction between man and a woman, which is cool. The other sort of books have helped me realize that I don't dress to attract the women I want to date. Both things have been helpful but none of them have focused acutely on the subject of looking for a woman of character and what that woman might be like. None of them touch on the subject that women of character are just as rare as a man of character. This was something I had considered but I'm a guy and therefore naturally a social idiot who has to learn the hard way how to be socially astute.
