Customer Reviews

Western Medicine is a tremendous resource...Some parents would walk 2 days to get to a hospital for antibiotics for a sick child. What a miracle! Yet even there, it is easy to forget that even Penicillin is produced by *Penicillium chrysogenum*, a type of Fungi, i.e. it was developed by studying Nature. We need to re-embrace nature-based solutions to health care, and we desperately need to protect our Rain Forests, where so many natural medicines are still waiting to be discovered. (See the inspired genius PAUL STAMETS, *Mycelium Running: How Mushrooms Can Help Save the World*, for more on this topic) What does this have to do with this book? Well, this book clearly and fairly discusses a fairly unknown herbal treatment, which has remarkably helped many, many cancer patients; it can even be taken together with conventional treatment. There is no silver bullet for all cancers, but everyone should know about this beautiful elegant herbal remedy! **ESSIAC TEA** was used to treat Cancer patients by **RENE CAISSE**, a beautifully dedicated nurse in Canada who discovered that one of her patients had been cured of Breast Cancer, from this traditional Ojibwe, First Nation tonic. The story of **RENE CAISSE**, is extremely moving. She only treated people in late stage cancer, who had a note from their doctors, saying there was nothing more Western Medicine

could do, AND SHE DID IT FOR FREE! Still, she was hounded by the Government, and the Conventional Medical Establishment, even though some doctors, including President Kennedy's personal physician, honored and recognized her work. Read this book if you or a loved one is dealing with Cancer.
