# Barron's AP Chemistry Flash Cards, 2nd Edition

## Synopsis

Chemistry definitions, formulas, and structures, organized according to the College Board's six big ideas for AP Chemistry, are presented in question form on more than 500 separate flash cards, with explanations and chemical reactions indicated on the reverse side. The cards measure 4 1/2" x 2 3/4" and have a punch-hole in one corner that accommodates an enclosed metal key-ring-style card holder. The ring allows students to arrange the flash cards in any sequence that suits their study needs. Updated to reflect the brand new AP Chemistry exam that will be administered for the first time in May 2014, these cards are a valuable study aid, whether used alone or in tandem with Barron's AP Chemistry review book. BONUS! An exclusive online exam included with the purchase of the flash cards.

## Book Information

Cards: 505 pages

Publisher: Barron's Educational Series; 2 edition (February 1, 2014)

Language: English

ISBN-10: 1438074190

ISBN-13: 978-1438074191

Product Dimensions: 3 x 5 x 5 inches

Shipping Weight: 2 pounds (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars [See all reviews](#) (23 customer reviews)

Best Sellers Rank: #19,630 in Books (See Top 100 in Books) #25 in [Books > Education & Teaching > Studying & Workbooks > Flash Cards](#) #65 in [Books > Science & Math > Chemistry > General & Reference](#) #73 in [Books > Textbooks > Science & Mathematics > Chemistry](#)

## Customer Reviews

The cards don't ask multiple choice questions, instead they give the student a problem to solve, a definition, or a concept to explain. The explanations in the back are thorough. It also gave my daughter a chance to figure out what she didn't understand and made it possible for me to be able to help her study.

These flash cards are designed to improve your speed, which is super important for the test. Each section of the AP test is a 90 minute sprint through chemistry, not a marathon, and you want to be able to answer the easier questions fast and understand the vocab right away. The cards are organized well by College Board's 6 big ideas, new for the 2014 test. I noticed some cards on

material that has been theoretically eliminated from the exam, but it is hard to be certain until we see an actual test. Keep in mind that these are not designed to teach you the material, and they won't help very much with how to approach the free response questions. However, they are definitely worth the money and the time studying with them.

We used these in my AP Chem class. The students liked them and would sit and go through them voluntarily on their own. They are durable and had a lot of information. Good general knowledge but no complex math etc.

A lot of this information is fundamentally wrong. I mean they spelled phosphorus incorrectly like 50 times. If it isn't a veritable source on something so basic, then should they be trusted to explain the much much more complicated processes in Chemistry like electrochemistry, kinetics, thermochem, etc.?

10/10 I'm memorizing 5 cards every day, I'll be done in about 3-5 months

Their great... not exactly what I wanted, but workable. Grandson bought their Political Sci. set and was very please.

I am actually disappointed in these cards... A lot of them are just - what is the formula of this compound? I wanted higher level review questions.

Am very happy with these so far. I'm using them to quiz my knowledge for the Praxis test (not an AP test), and they are helpful.
