Customer Reviews

I really enjoyed reading this book. It was a good premise. I can't help but feel that there should be a sequel to this story. The ending was somewhat disjointed. I hope there will be a sequel.

A short book with a very basic story and simple writing. I have no idea how a book of this quality remains popular.

This story was a really quick read but it definitely had some interesting twists and turns. I enjoyed the story.

The premise of the story was very good. The book read like something between cliff's notes and a book report.
