Customer Reviews

With so much information out there on how to keep yourself looking young, it is nice to have this book that narrows it all down! It contains information on preventing wrinkles, the importance of exercising, reducing stress, and eating well. There is even information on how to make your own, natural products! I especially like the emphasis on enjoyment (like travel, spending time with family, etc.) and an important part of the anti aging process!

I first thought that this book would be crap however I was impressed. The book provided a list of detailed anti aging products and great info as to why these products will work! Time will tell! However as far as great I go goes this book was jam packed!!

This book is just what I needed because I'm always trying to look my best. I take pride in my appearance, and this is probably why my husband was attracted to me in the first place. There are

some great tips in here. My favorites were the DIY recipes for skincare and beauty. I'm excited to use those! The author gives you insight on what it really takes to look your best. My goal is to look like I'm in my prime for the next 30+ years and I know that's possible with today's resources such as this book. I also found the tips on sleeping and eating well quite refreshing. It's one of those things where you know you should be doing it already but you can always use a reminder.
