Customer Reviews

This book is super cheese puffs. After four years of living in a chaotic relationship that finally seemed to get it's footing right, I thought we could work on building a deeper connection and have our newfound functionality blossom into a striving partnership or whatever. To address the old and leave it behind and build towards the future was my goal and for some reason, he agreed. This is a man's man, and for him to agree (my initial thought was, "Oh, why because you agree we have problems?") was miraculous. So, I put some time aside to research this thoroughly during my busy

day at work, and, after much thought and consideration, decided to go with this book. Just ten minutes a day! That's easy enough, right? Sure, it is, but I even stretch it out to once a week and unless I go over the material first and reword everything, it's grimace inducing. It's not that the concepts are wrong, it's just far reaching for certain types of relationships. I do not see myself and my boyfriend holding hands and staring to each others eyes intently for three minutes; that would make me laugh or want to get a snack. It's too corny. We have our problems, but to suggest deeply looking into each other's souls within the first few chapters can put the already downtrodden off the whole thing all together. Now, there are certain chapters that I feel would address these issues, but he thought we should go from the beginning forward. I really don't recommend that. Everyone is at a different point in their relationship or dealing with different issues. Some of it is too... pedestrian for us. We're not a 20 something, 6 month new couple. So, keep in mind that you should pick and choose.
