Customer Reviews

My husband is just finishing his radiation treatments for cancer of the head and neck. This book was invaluable to help me to understand the treatments and what to expect with my care giving. Anyone undergoing treatment should read, "The Best News About Radiation Therapy; How to Cope and Survive", by Carol L. Kornmehl, MD, FACRO.

Excellent Book This book is written so a non-medical person can comprehend this difficult subject. The book is one of a kind. A must for anyone who needs radiation therapy. A great motivator for hope in a world of despair.

Besides being easy to read and understand, the virtual tour of radiation therapy via the clear photos in the book rendered "Best News" an asset. There are no boring graphs or tables, just reader friendly information.

Dr. Kornmehl's book exudes compassion and hope along with comprehensive information. I'm so glad it was available in my doctor's office and easy to acquire on my own.

Dr. Kornmehl uses lots of clinical vignettes throughout *The Best News*, to which people can relate and derive a sense of light through the darkness.
