Customer Reviews

Great details in this text. It breaks down the foundation of many sociological terms concerning social inequality and the struggle for power. I would recommend this book to anyone who is interested in social behavior or social science.

Maybe I missed it in the description, but this book is filled with awful green highlighter and notes. A little distracting while trying to read. Unfortunately, I wish I would have known that before renting, but I guess that's just the risk you have to take.

Very repetitive book.

Very interesting
