Low-Fodmap 28-Day Plan: A Healthy Cookbook With Gut-Friendly Recipes For IBS Relief

Synopsis

Relieve your painful IBS symptoms permanently with The Low FODMAP 28-DAY Plan. Millions of people suffer from IBS, which can cause painful and embarrassing symptoms. Now you can relieve your worst IBS symptoms by adopting a low FODMAP diet. FODMAPs are simple carbohydrates that can be the hidden culprits behind digestive disorders. The Low FODMAP 28-Day Plan, from New York Times and best-selling publisher Rockridge Press, is a straightforward 4-week plan for removing FODMAPs from your diet and banishing digestive pain forever. With easy guidelines and simple recipes, you'll learn how to identify and avoid FODMAP foods, and make healthy and delicious FODMAP free meals in your own kitchen. With The Low FODMAP 28-Day Plan you will soothe your digestive system and make it easy to enjoy meals again, with:

- 105 recipes for delicious, nutritious low FODMAP dishes including Huevos Rancheros, Maple-Soy Glazed Salmon, Butterscotch Pudding, and Spiced Popcorn
- A "symptom tracker" so you can log what you're eating and how it affects your symptoms
- An easy-to-follow quickstart guide to help you begin a low FODMAP diet
- Comprehensive lists of foods to enjoy or avoid based on their FODMAP content, 10 tips for sticking to a low FODMAP diet when dining out

Customer Reviews

This book is the PERFECT introductory guide for anyone who has thought about or decided to try a low-FODMAP diet. I wish I had found it sooner actually, because changing your dietary habits so radically can leave you wondering what the heck you CAN eat. The 28-day plan is ideal for this

purpose because it includes shopping lists and pantry staple items to always have on hand, and it allows you to plan out your entire week (snacks included), which is something you'll need to get used to doing in advance for the best chances of sticking to the low-FODMAP diet. I've been on the low-FODMAP diet for 2 months now and I cannot believe how much my condition has improved. I have Cyclic Vomiting Syndrome and possibly IBS as well. Since I started the low-FODMAP diet and amino acid supplements, I have not vomited once. This is amazing for me. Do not wait a moment longer feeling miserable and hopeless. You don't need to live like that. Heal your body by feeding it the right foods that it knows how to digest. You will be shocked by the improvement in your energy level, mood and blood sugar stability, and the changes to your digestive tract. I didn't really even understand how bad my problems were until they went away. Now that they're gone, I'm sticking to this diet because I feel so good. I am doing way more cooking for myself than I ever did in the past, I'm losing weight at a healthy pace simply by eating such healthy food all the time, and above all I am HAPPY! The one thing I want to stress above all else, is that you need to stick with this diet for a full month to really start seeing the benefits of being on the low-FODMAP diet long term. It simply takes that long for your body to rid itself of all the old icky things you used to eat before.
