# Working With Families Of Young Children With Special Needs (What Works For Special-Needs Learners)

Synopsis

This user-friendly book presents research-based best practices for serving families of children with special needs from birth to age 6. Expert contributors demonstrate how early intervention and early childhood special education can effectively address a wide range of family concerns, which in turn optimizes children's development and learning. Tightly edited, the volume offers indispensable tools for assessing families; identifying and capitalizing on their strengths; providing information, support, and coaching; collaborating with parents and teachers to address children's functional needs in the context of everyday routines; and coordinating care. Over a dozen reproducible checklists and forms help professionals immediately implement the techniques and strategies described.

Customer Reviews

Read this book with a group of high school students as part of a larger project. They were enthralled by book and stunned at the ending. It was a good starting point for a discussion on how we treat each other! Also read it with elementary students who loved it but again were stunned at the ending! Would recommend this book to everyone who wants to remind people about kindness!

The book was exactly what they said it would be. It. Shipped quickly. It fit the purposes I needed it for.
