LINZESS (Linaclootide): Treats Irritable Bowel Syndrome With Constipation (IBS-C) And Chronic Idiopathic Constipation (CIC)

Synopsis

Although, your health condition may impact your everyday life, do not let it define who you are. • LINZESS (linaclotide) is used in adults to treat irritable bowel syndrome with constipation (IBS-C; a condition that causes stomach pain or cramps, bloating, and infrequent or difficult passage of stools) and chronic idiopathic constipation (CIC; difficult or infrequent passage of stools that lasts for 3 months or longer and is not caused by a disease or a medication). Linaclotide is in a class of medications called guanylate cyclase-C agonists. It works by increasing the movement of food and waste through the stomach and intestines and by blocking pain signals in the intestines. This medicine is available only with your doctor's prescription. Thanks and may you have a good understanding about this drug "LINZESS. You may want to share this book with your family and friends who may be in need of help and would want to use this medicine. Take care, and as always, be well!
